Organize Music Automatically with Music Organizer Software

Organize Music, Organize MP3 and Media Automatically with Music Organizer Software
Was released new edition of Music Organizer Software, v 4.93. In new Music Organizer Software made large number of improvements, especially related to increasing of stability and speed of music and media organizing, sorting and renaming process.First, in Music Organizer Software was improved organizing of MP3 music files without any tag information or only with partial tag information. Now with Music Organizer Software all they are automatically organized using information, which is available, even if it is partial.Also to Music Organizer Software was appended possibility for easy image files organizing. Not a secret, that people, who collect music, also have large collections of photos. And all this photos are also need to be organized. We gathered large number of requests from our Music Organizer Software users to append photo organizing possibilities to our software. And they are now available! In new version of Music Organizer Software was appended a new wizard for photo organizing. It is named “Organize Photos” and is accessible over “Wizards” -> ”Organize Photos” Music Organizer Software top menu item. There are several standard methods of photo organizing: by camera model and manufacture, by photo dimensions (width and height), by photo content type (Color or Black and white, Photo, Drawing or Document scan, etc.), by photo creation date or something custom, that you can easily specify for yourself by pressing “Edit” button. In new version of Sort MP3 music organizer are also were foreseen large amount of non-standard situations, that may occur. For example, if while MP3 music organizing free space on the destination hard drive will be too low to continue music organizing, a special notification will be shown and you will easily understand, what had happened. Another example of positive changes in Music Organizer Software – if there will not be any MP3 music files in source folder and you will want to start MP3 music organizing, you will be notified, that there are no MP3 music files in the source folder to organize. Intuitive icon, which will be shown in addition to event description, will let you know, that there are no MP3 music files in source folder to organize. By just one click on this sign will be opened source folder (you don’t need to go to Windows Explorer to find it) and you will have possibility to copy to it all MP3 music files, that you want to be sorted, organized and automatically renamed.As you know, Music Organizer Software organize not only your MP3 music and music in 176 other formats and types, it also organize all your photos, movies, video clips, text documents (PDF, Microsoft Office, etc.), archives (ZIP, RAR, etc.) and all files, music and media inside of archives. Music Organizer Software now is able to organize photos by variety of their tags and properties. In addition to standard tags, such as image width and height, size and comments, Music Organizer Software now will also organize your photos by all types of EXIF, IPTC, GPS, JFIF, GeoTIFF, XMP, FlashPix, AFCP, ICC Profile, Photoshop IRB and variety of other image tags and properties. Music Organizer Software even use camera manufacturer-dependant tags. It can organize photos using tags of Canon, HP, JVC, Victor, Casio, Leaf, FujiFilm, Nikon, Olympus, Epson, Pentax, Asahi, Ricoh, Sanyo, Sigma, Foveon, Konica, Sony and may other photo cameras. Music Organizer Software know about your photos even more, that you know about them and use it’s knowledge to organize your photos and media in the perfect way, even better as you may imagine.
