

## Music Organizer Software v.4.89 Released

Thursday, 22 February 2007

Was released Music Organizer Software v.4.89.

Differences, related to previous versions:

The most important improvement of new Music Organizer Software version - is easy to use "Main Configuration" wizard.

It is shown after program installation and running at the first time automatically. New wizard will let users to start using Music Organizer Software in seconds. It help to define:

- source directory (folder, files from which Music Organizer Software will process: sort, rename, organize);
- database directory (folder, to which files will be moved or copied after processing);
- action (what to do with processed files: copy them from source directory to database, or move);
- registration (for users, who still did not registered their Music Organizer Software product copy, may do it now in automatical mode).

Last product version may be purchased in our online store. All registered Music Organizer Software users can get it for free.
